

# WÜRZBURG LIFE SCIENCE SEMINAR

2026  
SUMMER SEMESTER

TUESDAYS | 17:00 - 18:00

- APR 21** “What Can Data Science Do for You?” From bacterial single cells to growth prediction  
Christian L. Müller, *LMU & Flatiron Institute*
- APR 28** TBD  
Ana Conesa, *I<sup>2</sup>SysBio, Valencia*
- MAY 05** TBD  
Adam Rosenthal, *UNC School of Medicine*
- MAY 19** **Defence system synergism to evade bacteriophage attack**  
Franklin Nobrega, *University of Southampton, UK*
- MAY 26** TBD  
Ilse Jacobsen, *Leibniz Institute for Natural Product Research and Infection Biology, Jena*
- JUN 02** **The ongoing dance between bacteria and bacteriophage - lessons from the gut**  
Colin Hill, *University College Cork, Ireland*
- JUN 09** **Mapping Inherited Bacterial Heterogeneity in Human Infections**  
Raya Faigenbaum-Romm, *Weizmann Institute of Science*
- JUN 16** TBD  
Markus Gerhard, *TU Munich*
- JUN 23** TBD  
Victor Sourjik, *MPI Marburg*
- JUN 30** TBD  
Annalisa Marsico, *Helmholtz Munich*
- JUL 14** TBD  
Giulia Manina, *Pasteur Institut*
